BSCR NEWS - EARLY YEARS & PRIMARY

Maths Olympics Regional Final

A huge congratulations to Kai Levonov (Year 1) and Julian Barquero (Year 3) on their participation in the regional final of the OLCOMEF 2025 last week. They have now been invited to an awards ceremony which will take place on the morning of Wednesday 26th November at UCR. Their achievements up until now have been incredible and so we keep our fingers crossed for the final results!

Karate Success

Congratulations to Miranda Guillen (Year 5) on achieving first place in the female sparring category at the recent Kyokushin Kan Tamashii Tournament held last weekend. Well done Miranda, we are all very proud of you!

BSCR NEWS - EARLY YEARS & PRIMARY

Gravite's Academy Festival

Congratulations to Abigail Morales (Year 4) and María Julia Ramírez (Year 3) who secured 2nd and 3rd place respectively in the gymnastics category (Girls 10-11 year olds) at the event held over the weekend. Well done girls, we are very proud of you both!

Día de las culturas

The month of October has been filled with many activities celebrating "El día de las culturas". In addition to Teacher Irena's presentation, we had the participation of Teacher Jacqui, who spoke to us about her home country, Nicaragua, and recited a beautiful poem by the great Nicaraguan and Latin American author, Rubén Darío. A thousand thanks to both teachers for their participation and for teaching us about their countries; we thoroughly enjoyed it! Additionally, during the students' visits to the library with their teachers, we had various activities in which we had fun and learned about famous places and monuments, animals that are national symbols in different countries, and we took a tour of the Geography section (910-919) of the library. We greatly appreciate parents checking and ensuring that their children are returning the books they have borrowed on time. Students can bring books they no longer need to the library during recess or during visits with their teachers.

BSCR NEWS - SECONDARY

Planetarium Visit

The Year 6 students had an exciting visit to the planetarium, where they learned fascinating facts about space. They especially enjoyed watching a movie that explained how the universe was formed and explored different theories about wormholes. The visuals were stunning, and the students were amazed by how scientists believe wormholes could connect distant parts of the universe. It was an unforgettable trip that sparked their curiosity about astronomy and the mysteries of space.
