BSCR NEWS - GENERAL

SDS - Virtual Workshop (Year 4 to Year 9)

The SDS Department cordially invites you to participate in the virtual workshop "Educating for Life: Tools for Raising Resilient Sons and Daughters," which will take place next Thursday, November 12th, for families of Year 4 to Year 9 students. This session aims to share practical strategies and tools to help you support your children in developing resilience, strengthening their ability to face everyday challenges, adapt to change, and overcome difficulties in a positive way. Here is the [link](#) for the meeting.

BSCR NEWS - EARLY YEARS & PRIMARY

Early Years and Year 1 Football and Basketball

We would like to highlight the enthusiasm, participation, and effort of our younger students, who are taking their first steps in the world of sports. These first sporting experiences represent valuable learning opportunities, not only to develop motor and sports skills, but also to strengthen emotional management, perseverance, and teamwork. Through each training session, they learn to face new challenges, overcome difficulties, and understand that effort and consistency are a fundamental part of their growth. We are very proud to accompany them in these first experiences!

Year 5 Teambuilding Workshop

On Friday the 23rd of October our Year 5 generation participated in a range of team-building activities, facilitated by our SDS Department. We would like to thank our SDS Team for designing such meaningful and effective activities that our Year 5 generation thoroughly enjoyed.

Chinese Recitation Contest Winner

Congratulations to Karry Gong (Year 5) on achieving a gold award at the 2026 Global Chinese Recitation Contest. Karry was one of only 258 participants to achieve a gold award out of a total of 54,000 global competitors.

Meliponary Dorada de la Bajura

Year 7 Eco Committee students visited the Meliponary Dorada de la Bajura to discover the fascinating world of stingless bees and their essential role in pollination, biodiversity, and food security. This enriching experience deepened their understanding of the importance of protecting these remarkable pollinators and inspired them to continue promoting sustainability and environmental stewardship within our school community.

Olimpiada Costarricense de Informática (OCI)

Congratulations to our Year 10 students, Luisa Rodríguez and Emiliano Robalino, on winning silver medals in the Costa Rican Informatics Olympiad (OCI).
